

Mission Update

Friends of Youth has had a consistent vision for 67 years — that ALL youth should have EVERY opportunity to succeed.

But our mission statement has changed over the years, as it should. Mission statements reflect how we intend to accomplish our vision. As the needs of our youth change, as our understanding of youth development deepens, and as our services expand, our mission statement needs to change as well.

Over the course of the last year, our staff and Board of Directors have been hard at work updating our mission statement in response to the needs of the young people we serve. The Board of Directors approved our new mission statement at the January board meeting, and we are excited to share it with you today:

We partner with youth and families to provide the relationships, resources, and skills they need to attain personal growth and success

We are pleased to have an updated mission that better reflects the work we are doing for foster youth, homeless youth, young families, students, and children in our community. Thank you for partnering with Friends of Youth in our mission to ensure our youth have what they need to succeed.
